8	Analytics, Tracking & Data	
9	Creative & Design for Marketers	
10	AI in Digital Marketing	
11	Capstone Live Project	
12	Career, Freelancing & Agency Setup	

PHASE 1: 180-HOUR CLASSROOM TRAINING

Six months of intensive, hands-on training structured into 12 progressive modules. Every module ends with a real portfolio deliverable.

MODULE 1

DIGITAL MARKETING FOUNDATION

SESSION	TOPICS	
1.1	Digital Marketing Ecosystem 2026 • Traditional vs Digital • Career paths & salary landscape • AI-assisted buyer research & zero-click behaviour	
1.2	Customer Journey Mapping • Marketing Funnels (TOFU–MOFU–BOFU) • AIDA & modern non-linear journeys	
1.3	Buyer Persona Creation (hands-on workshop) • Market & Competitor Research using SEMrush / SimilarWeb	
1.4	Branding & Positioning • STP framework • Brand voice in the AI era	
1.5	SOSTAC Marketing Planning Framework • Building a one-page marketing plan	

MODULE 2

WEBSITE, CMS & CONVERSION OPTIMIZATION

SESSION	TOPICS	
2.1	How the web works • Domain, Hosting, DNS, SSL • Website architecture planning	
2.2	WordPress Installation & Setup (live lab) • Themes, plugins, security basics	
2.3	Page builders (Elementor) • Website structure & UI/UX fundamentals	
2.4	Landing Page Design Principles • Message match • Above-the-fold strategy • Framer/Webflow awareness	
2.5	CRO Fundamentals • Forms, CTAs & Lead Capture • Heatmaps (Microsoft Clarity / Hotjar)	
2.6	Chatbots & WhatsApp Integration • Website Speed & Core Web Vitals (PageSpeed Insights lab)	
2.7	Lab: Each student launches a live WordPress website + landing page	

MODULE 3

SEO + AI SEARCH OPTIMIZATION (GEO)

SESSION	TOPICS	
3.1	How search engines work • Crawling, indexing, ranking • Google algorithm updates & E-E-A-T	
3.2	Keyword Research deep-dive • Search intent mapping • Tools: Google Keyword Planner, Ubersuggest, SEMrush/Ahrefs	
3.3	Competitor SEO analysis • Keyword gap analysis • Building a keyword master sheet (lab)	
3.4	On-Page SEO: titles, meta, headers, internal linking, image SEO, schema markup basics	
3.5	On-Page lab: optimise your own website pages • Yoast/RankMath hands-on	
3.6	Technical SEO: Search Console, sitemaps, robots.txt, canonical, Core Web Vitals, mobile-first	
3.7	2026 Special — AI Search & GEO: Google AI Overviews, ChatGPT/Perplexity visibility, answer-engine structuring, zero-click strategy	
3.8	Off-Page SEO & Link Building • Digital PR • Guest posting • What works in 2026 vs spam tactics	
3.9	Local SEO • Google Business Profile optimisation (live lab) • Reviews strategy • Local citations	
3.10	Full SEO Audit workshop + Monthly client reporting template	

MODULE 4: PERFORMANCE MARKETING (PAID ADS)

Part A: Google Ads

MODULE 4A

GOOGLE ADS

SESSION	TOPICS	
4.1	Google Ads ecosystem • Account structure • Auction & Quality Score • Billing setup	
4.2	Search Campaigns: keyword match types, ad copy (RSAs), extensions/assets (live build)	
4.3	Bidding strategies 2026: Smart Bidding, tCPA, tROAS • Budgeting & forecasting	
4.4	Display & YouTube campaigns • Demand Gen campaigns • Video ad formats	
4.5	Performance Max campaigns (2026 essential) • Asset groups • Audience signals	
4.6	Conversion tracking setup • Remarketing audiences • Optimisation & negative keywords lab	

Part B: Meta Ads

MODULE 4B

META ADS

SESSION	TOPICS	
4.7	Meta Business Suite & Ads Manager setup • Campaign objectives & structure	
4.8	Audience targeting 2026: Advantage+ audiences, custom & lookalike audiences, broad targeting era	
4.9	Creative strategy: image vs video vs carousel • UGC-style ads • Hook frameworks	
4.10	Meta Pixel & Conversions API (CAPI) — privacy-first tracking setup	
4.11	A/B testing methodology • Reading metrics (CPM, CTR, CPA, ROAS) • Scaling frameworks	
4.12	Live lab: Launch real campaigns with small budget — Google + Meta simulation/live	

MODULE 5

SOCIAL MEDIA & INFLUENCER MARKETING

SESSION	TOPICS	
5.1	Social media strategy framework • Platform selection • Algorithm mechanics 2026	
5.2	Instagram Growth: Reels strategy, SEO on Instagram, trial reels, broadcast channels	
5.3	Facebook Page management • YouTube channel strategy & Shorts	
5.4	LinkedIn Marketing (B2B): personal branding, company pages, content formats, newsletters	
5.5	Influencer & UGC Marketing: finding creators, pricing, briefs, contracts, micro vs nano influencers	
5.6	Community management • Social listening • Analytics & monthly social reports	

MODULE 6

CONTENT MARKETING & COPYWRITING

SESSION	TOPICS	
6.1	Content marketing strategy • Content-market fit • Pillar & cluster model	
6.2	SEO blog writing workshop (human + AI-assisted, E-E-A-T compliant)	
6.3	Ad copywriting psychology: pain-agitate-solve, AIDA, social proof, urgency	
6.4	Hooks, headlines & CTAs — 50 hook formulas • Writing for Reels/Shorts scripts	
6.5	Video & Reel content strategy • Storyboarding • Repurposing system (1 video → 10 assets)	
6.6	Content calendar creation lab (Notion/Sheets)	

MODULE 7

EMAIL, WHATSAPP & MARKETING AUTOMATION

SESSION	TOPICS	
7.1	Email marketing fundamentals • List building • Deliverability 2026 (DMARC, sender reputation)	
7.2	Email campaign creation lab (Mailchimp/Brevo) • Newsletter design • Segmentation	
7.3	WhatsApp Business API marketing • Broadcast, catalogs, automation flows (AiSensy/Wati)	
7.4	CRM tools: HubSpot/Zoho — pipelines, lead scoring, lifecycle stages	
7.5	Lead nurturing & funnel automation: drip sequences, abandoned-lead workflows — Build a 5-email automated sequence	

MODULE 8

ANALYTICS, TRACKING & DATA

SESSION	TOPICS	
8.1	Marketing measurement fundamentals • KPIs vs vanity metrics • Privacy-first / cookieless era	
8.2	Google Analytics 4 deep-dive: events, conversions, explorations, audiences	
8.3	GA4 hands-on lab on student websites • Funnel & path analysis	
8.4	Google Tag Manager: tags, triggers, variables • Event tracking setup lab	
8.5	Pixel & server-side tracking concepts • Consent Mode v2 • UTM discipline	
8.6	Attribution models • Looker Studio dashboard building lab • Client ROI reporting	

MODULE 9

CREATIVE & DESIGN FOR MARKETERS

SESSION	TOPICS	
9.1	Design principles for marketers • Brand kits • Canva mastery	
9.2	Ad & social media design lab: statics, carousels, story formats	
9.3	Basic video editing for Reels & ads (CapCut) • Captions, hooks, pacing	
9.4	Creative testing framework: iteration matrix, winning-ad anatomy — Produce 1 complete ad set (3 statics + 1 video)	

MODULE 10

AI IN DIGITAL MARKETING

SESSION	TOPICS	
10.1	AI landscape 2026 for marketers • ChatGPT, Claude, Gemini, Perplexity — when to use what	
10.2	Prompt engineering for marketers: frameworks, system prompts, brand-voice prompting	
10.3	AI for content: blogs, scripts, carousels at scale • AI image/video tools (Midjourney, Runway) • Avoiding AI-detection penalties	
10.4	AI for SEO & keyword research • AI for ads: creative generation, copy variants, analysis	
10.5	AI chatbots & agents for lead gen • Custom GPTs for marketing workflows	
10.6	Building your personal AI toolkit & SOPs — Create 10 reusable marketing prompt templates	

MODULE 11

CAPSTONE LIVE PROJECT

SESSION	TOPICS	
11.1	Capstone briefing: each student/team assigned a real business • Discovery & audit	
11.2	Build: website/landing page + SEO setup + tracking installation	
11.3	Build: campaign structure (Google + Meta) + content calendar + automation funnel	
11.4	Execute & monitor • Mentor review sessions	
11.5	Final presentation: full strategy + results + reporting to panel (graded)	

MODULE 12

CAREER, FREELANCING & AGENCY SETUP

SESSION	TOPICS	
12.1	Resume & LinkedIn optimisation • Portfolio building • Interview preparation + mock interviews	
12.2	Freelancing: Upwork/Fiverr profile setup • Client pitching & proposal writing • Pricing models	
12.3	Agency operations basics: services, retainers, client onboarding, tools stack	

PHASE 2: 6-MONTH STRUCTURED INTERNSHIP

Students apply knowledge to real businesses under mentor supervision, rotating through specialisations and finishing with an independent client project.

	FOCUS TRACK	KEY DELIVERABLES
	SEO & Website Track Manage SEO for a real client: audits, on-page fixes, content publishing, GBP management	Ranking improvement report, 4 optimised pages, monthly client report
	Paid Ads Track Run live Google & Meta campaigns with real budgets under supervision	Campaign launch docs, weekly optimisation logs, ROAS report
	Social & Content Track Own a brand's social channels: calendar, creatives, reels, community	30 published posts, growth analytics report, 1 influencer collab brief
	Automation & Analytics Track Build CRM workflows, email/WhatsApp funnels, dashboards for client	Live automation funnel, Looker Studio dashboard, attribution analysis
	Independent Client Project Each intern handles one small business end-to-end (strategy → execution → reporting)	Full-stack campaign, client presentation, testimonial
	Specialisation + Placement Sprint Deep-dive in chosen specialisation, portfolio finalisation, mock interviews, placement drive	Final portfolio, certification, job applications or first freelance client

INTERNSHIP OPERATING RHYTHM

Weekly	Team standup + mentor review (1 hr) Client work (15–20 hrs/week)
Bi-weekly	Client reporting & presentation practice
Monthly	Performance evaluation scorecard (technical skill, communication, ownership, results)

INTERNSHIP EVALUATION — CERTIFICATION CRITERIA

CRITERIA	WEIGHT
Client project results & quality of work	40%
Reports, dashboards & documentation	20%
Communication & client presentations	20%
Attendance, ownership & teamwork	20%

WHAT MAKES THIS PROGRAM 2026-READY

This curriculum is not a recycled course from 2020. Every module reflects what actually works right now— built for the AI era, privacy-first advertising, and the Indian digital market.

AI-First Throughout

GEO / AI Overviews SEO, prompt engineering, AI agents, AI creative tools — AI is woven into every module, not bolted on as an afterthought.

Privacy-Era Tracking

GA4, Conversions API, Consent Mode v2, server-side concepts — learn how to track accurately in a cookieless world.

Modern Ad Products

Performance Max, Demand Gen, Advantage+ — master the latest campaign types that drive results in 2026.

Short-Form Video Native

Reels/Shorts strategy, scripting, and editing built into the core curriculum — not a bonus chapter.

WhatsApp-First India Market Skills

Business API, broadcast automation, CRM integration — skills specifically tuned for the Indian market.

Real Outcomes Every Module

Every module ends with a portfolio deliverable. The internship produces real client results you can show to employers.
